AI ASSISTANTS & CHATBOTS

Google Gemini

Google's multimodal model reasoning seamlessly across text, images, video, and code.

ChatGPT

OpenAI's pioneering AI, known for deep reasoning (o1), coding, and creative writing.

Claude

Anthropic's AI, known for a massive context window and safe, nuanced answers.

Perplexity AI

A real-time answer engine that browses the web to provide cited, accurate answers.

Chatbase

Build a custom GPT chatbot trained on your own data to add to your website.

Flot.ai

An AI copilot that integrates with any app to help you write, read, and remember.

CustomGPT

Create custom ChatGPT bots with your own business content for accurate support.

YouAI

A 'MindOS' to digitize your mind and build personalized AI assistants.
